

11 January 2016

Greetings ultrasound users of the world:

**Re: Letter of invitation to participate in WFUMB infection control survey**

The World Federation of Ultrasound in Medicine & Biology (WFUMB) is undertaking a survey to better understand disinfection and hygiene practice amongst ultrasound users throughout the world. The survey results will assist WFUMB in developing guidelines for infection control and ensure that a formalized policy will cover all aspects pertinent to disinfection of ultrasound transducers, ultrasound machines and the safe use of ultrasound coupling gel.

All responses will be confidential. Your input is greatly appreciated.

Click on the following link to access the survey:  
<https://www.surveymonkey.com/r/WPMH68M>

Thank you for your participation,

Susan C Westerway, PhD  
Chair, WFUMB Infection Control Survey Taskforce

Jacques Abramowicz, MD  
Chair, WFUMB Safety Committee
