

WFPI Visiting Fellowship Application – India

Introduction:

WFPI is offering a three-month sponsored training program of up to 3 months, to be spent at the Postgraduate Institute of Medical Education and Research in Chandigarh, India under the mentorship of Prof. Kushaljit Singh Sodhi, MD, PhD, MAMS, FICR. This program offers \$3,000 US to cover transport and living expenses.

The program aims to enhance the clinical practice and teaching of paediatric radiology at all levels of healthcare more broadly in India, by developing expertise in imaging techniques and familiarity with protocols appropriate to the regions's burden of childhood disease. The program is designed to complement and expand basic specialist training in diagnostic radiology. The outcome will be detailed knowledge and in-depth experience of paediatric imaging in the context of India's unique disease burden. The knowledge and skills acquired will empower a radiologist to conduct optimal paediatric imaging in either a general radiology service or a dedicated paediatric service.
